

MESSAGE FROM DIRECTOR
Bruce Vander Sanden
Sixth Judicial District of Correctional Services

On behalf of the staff of the Sixth Judicial District Department of Correctional Services, I am pleased to present this 2012-2013 Annual Report.

As the new director, I'd like to take this opportunity to reflect on the accomplishments of the past year, while looking ahead to our future goals and strategies.

The Sixth Judicial District Department of Correctional Services continues to provide an array of services: pretrial interviews and supervision, presentence investigations, probation and parole supervision, residential placement, and other specialized supervision services such as drug treatment court. Our staff strives to balance accountability and treatment in order to facilitate community safety. This is evidenced by the work of our High Risk Unit and numerous credentialed staff that provide treatment and educational services. Our ultimate goal is to ensure that "*no new victims*" are created. We strive to do this in an evidence based and cost effective manner that allows us to maximize the use of available resources. It is our staff that makes the department successful.

Near the end of the fiscal year when I was appointed director, we embarked on a new journey. This journey includes:

- A review of system wide practices and procedures. The goal is to remove or modify inefficiencies while continuing our focus on evidence-based practices.
- Director-staff retreats. The goal is to review the department's strengths, weaknesses, opportunities and threats (SWOT). This review will provide us with a roadmap to continue to move the department forward.
- The opening of ANCHOR residential center. The goal is to provide residential bed space to criminal justice-involved individuals with mental health and substance abuse issues. The need to address these issues continues to grow within the corrections population. This is the first-of-its-kind facility in Iowa.
- Pilot Batterers Education program (Achieving Change through Value Based Behavior: ACTV). This new program shows promise for reducing violence among participants.

This report is submitted for filing with the Board of Supervisors of each county in the Sixth District, per Iowa Code 905.4. This document reflects activities of the Sixth Judicial District Department of Correctional Services from July 1, 2012 through June 30, 2013.

I would like to thank and recognize the Board of Directors for placing their confidence in me as the new director; the work of our advisory committees; and most importantly, the staff of the Sixth Judicial District Department of Correctional Services. I am also grateful to our community partners who continually strive to improve our outcomes.

Respectfully submitted,

Bruce Vander Sanden, Director

VISION / MISSION / VALUES

VISION STATEMENT

Iowa Community Corrections is a place where:

- ◆ Every offender makes it and our communities are safe;
- ◆ We invest in partnerships so that all members of the community have hope of succeeding;
- ◆ Individual growth is encouraged and expected, and achievement is recognized;
- ◆ Shared decision-making and team participation demonstrates our mutual respect;
- ◆ Offenders are held accountable;
- ◆ Diversity is our strength; cultural competence is achieved;
- ◆ Innovation is valued;
- ◆ We measure our results and do what we know works.

MISSION STATEMENT

The mission statement of the Iowa Department of Corrections is to: Advance successful offender reentry to protect the public, staff and offenders from victimization.

GUIDING PRINCIPLES

We believe:

- People can change
- In a Culturally Competent Workforce
- In Respect & Equality
- In Accountability
- In Integrity
- In Innovation
- In Teamwork

CBC OVERVIEW/HISTORY

The Sixth Judicial District (6JD) covers a six county area in Iowa (Benton, Iowa, Johnson, Jones, Linn and Tama). The 6JD had its' early beginnings in March of 1973 with the Community Court Services Project, funded by a Law Enforcement Assistance Administration grant. The Project resulted in three integrated programs: pretrial release on recognizance, pretrial release with supervision, and probation services. In July 1977 Chapter 905 of the Code of Iowa went into effect restructuring Iowa community-based corrections. Under the new law, a local Board of Directors supported by an Advisory Committee administered community-based corrections. In 1983 the legislature created a separate Iowa Department of Corrections, but transferred parole and work release administration to local control, under the 6JD.

Since this time, many changes have taken place in the 6JD. Land has been purchased and new offices and residential facilities constructed in three counties, consolidating services once scattered throughout communities. Clients supervised in the community have grown from a little over 2,000 in 1983, to over 4,400 in 2013. One small residential facility in 1983 housed 44 clients. Three facilities are now in place in the 6JD, with a total bed capacity of 237 clients. There were 81 employees in 1983; as of June 30, 2013 we had 186 FTE employees. While we continue to provide the services specifically required by the Code of Iowa, the 6JD also prides itself in keeping up with the research/evidence based practices, as well as being innovative in that service delivery. A new residential mental health facility, the ANCHOR Center, was completed on the Corrections Complex in Cedar Rapids. The Center is designed to serve up to approximately 150 clients in the outpatient programming and was approved for outpatient correctional substance abuse licensure through the Iowa Department of Public Health. Eventually, as funding allows, the facility will also house and provide services to 26 residential clients. The facility is a modern, custom designed facility for behavioral health clientele, with an emphasis on the balance between treatment and security.

Quality Assurance

In 2007, an Executive Officer was hired to implement a range of Quality Assurance practices with the goal of improving processes that would ultimately lead to greater offender success. In 2011, four supervisors were re-classified as Executive Officers with job duties dedicated to Quality Assurance. Between July 1, 2012 and June 30, 2013, the Quality Assurance Team accomplished:

- ◆ Audit tools for case managers were revised to fit current needs.
- ◆ 4 evidence-based classes that focus on helping offenders reduce criminal thinking patterns and teach life skills were monitored for program fidelity and feedback given to the facilitators. This process helps ensure that facilitators are delivering the class material to offenders accurately and consistently so that offenders use the skills learned to reduce criminal behavior and create fewer victims.
- ◆ 195 case plan audits, 247 LSI-R audits, 166 program audits and 202 content audits were completed. Auditors met with agents to coach them on audit findings. These audits help agents improve their case management efforts with offenders. Research shows that when treatment needs are correctly identified and appropriate treatment approaches are utilized, the risk of re-offending is significantly reduced. Audits also ensure that staff is following case management, assessment and documentation policies and procedures.
- ◆ Several training issues were identified from patterns in audit results and booster sessions were designed and delivered to meet these needs.

CBC Overview/History – continued

- ◆ Offender Exit Surveys were fully implemented in both field offices and residential facilities. The survey form was revised this year to capture more precise and useful information. Survey results were aggregated and shared with Management Team. Surveys completed so far have indicated that most offenders are pleased with the services they have received while on supervision. One area receiving generally high marks is that of the relationship between the offender and the supervising agent. Many offenders noted that they feel their agent spent adequate time with them and genuinely cared about their success.
- ◆ Customer satisfaction surveys were developed for the judiciary and for identified agencies that provide services to our offenders. The survey results provided excellent feedback that will be used to improve our services and were shared with Management Team.

Training

Because training staff to be competent in the requisite knowledge, skills, and competencies is directly related to our ability to achieve successful results with offenders, the District hired a Training Officer in 2008 to develop and implement quality training.

FY 2009 The emphasis was to develop and train all staff on Use of Force and Personal Safety.

FY 2010 Developed internal training modules on: New Employee Orientation, Field Officer Training, Mandatory Child abuse/Dependent Adult abuse training, and Code of Ethics.

FY 2011 Focused on online e-learning training (health and safety mandatory training modules), further development of the training database to track staff training more efficiently, and training on cognitive based curriculums.

FY 2012 Focused on the quality of training with feedback from participants on what worked and where training can be improved.

FY 2013 Focused on meeting the e-learning requirements along with SVP implementation and PREA compliance.

Benchmark: 165 (99%) employees completed mandatory training per policy (76.1% completed 2012-2013)

Benchmark: 9,115 Total Training Hours were completed by district employees (7,686 completed 2012-2013)

Internal training included:

1. 11 Volunteer Staff completed (16 hour) Orientation training (Encompass) in February 2013.
2. 8 Safety Training Boosters sessions were held; staff is required to complete 1/year.
3. 9 Motivational Interviewing Booster sessions were held topics (4 processes of MI); staff is required to complete 1/year.
4. 188 (76.1%) employees successfully completed the required E-learning training modules.
5. Leadership Academy created and implemented for frontline staff, 10 participants graduated from the first academy. Second academy created with feedback from first class.
6. 12 Fire Extinguisher Simulator Training sessions offered August 2012.
7. 8 Wellness Committee trainings –Live Healthy Iowa, spring cleaning, inflammation connection, healthy homes & green initiative, 211, nutrients for weight loss, how to get too sleep, less mess equals less stress, outlook calendar.

CBC Overview/History – continued

8. 3 AA/EEO Committee Trainings –Ethnic Fest, LGBTI, Living with Schizophrenia In your Voice.
9. 7 American Heart Association CPR/AED Trainings in July 2012–June 2013.
10. Mental health focused trainings, native American substance abuse, problem gambling, seeking safety.

Other initiatives included:

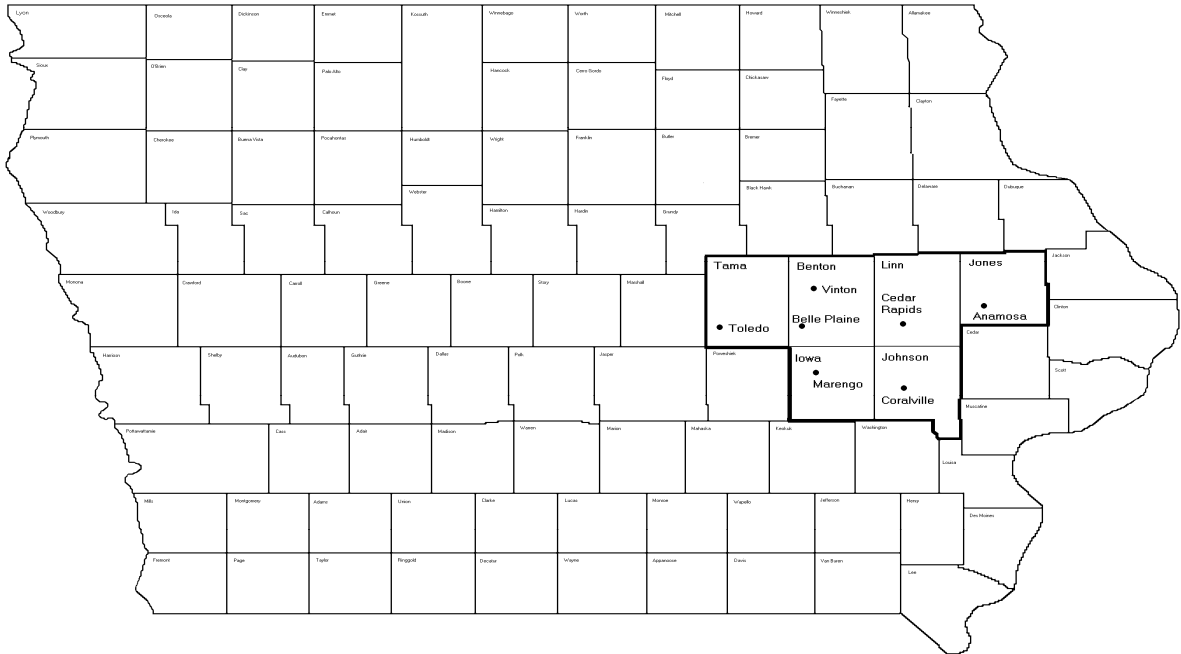

1. Racial Disparity Charter Committee (RDCC) - Dr. Loes from Mt. Mercy University, RDCC Survey identify issues that pertain to racial disparity, data collection completed, data is being calculated for research with Urban Institute
2. Motivational Interviewing (MI) – implementation of the four processes of MI from 2013 publication
3. Offender Employment Trainings - Offender Employment Retention Worth the Effort - July 2012
4. BEP Facilitator's - ACTV curriculum implementation for BEP groups
5. Collaborative trainings with community partners (OES, MI, Firearms) ongoing
6. Implemented newly created training database in 2011, training hours tracking along with feedback for each training session.
7. High Risk Unit - Assisted with logistics of specialized HRU training ongoing
8. Moving on female offender program trained facilitators of curriculum
9. Family Team Meeting Facilitators trained facilitators
10. Bi-annual Orientation training (Encompass) for volunteers (mentors, interns); scheduled for February 2013 and September 2013

Priorities for fiscal 2012-2013 include:

1. Motivational Interviewing Competency Development (MITI) Pilot project
2. A.L.I.C.E. training for residential and field services offices
3. Course Facilitation/Train the Trainer continued development cadre of trainers for core courses
4. Leadership Academy for frontline staff
5. Leadership Training Academy for Youth Leadership Program Explorer Post
6. E-learning Benchmarks
7. Mandatory Reporter Training

PROGRAM / TREATMENT SERVICES OVERVIEW

PRETRIAL RELEASE

This program was established as an alternative to the traditional bail bond system. As a service to the court, arrestees are objectively assessed for likelihood to appear for court. A standardized interview that looks at issues related to stability (residence, employment/support, family ties, criminal record, community protection, etc.) is conducted at the jail 7 days/week. Information is verified and a recommendation is made to the court regarding release.

Release recommendations are not made when the information cannot be verified, with the exception of offenders whose backgrounds include records of failure to appear, absconding from supervision, and escape. For those offenders and certain others designated by policy, a bond recommendation is made.

Pretrial Interviews Conduct: 2,852

PRETRIAL RELEASE WITH SERVICES

Release With Services (RWS) provides supervision to offenders who are released to the supervision of the Department while awaiting trial, rather than released on their own recognizance or held in jail on cash bond. Probation/Parole Officers supervise RWS offenders to help ensure that offenders meet all court appearances and to inform the Court of any actions that violate their release agreement during the pretrial period.

⇒ **New Admissions:** 725
⇒ **Closures:** 695
⇒ **Active on 6/30/13:** 264
⇒ **Offenders Served:** 973

PRESENTENCE INVESTIGATION

Presentence investigations are prepared as mandated by the Code of Iowa and as ordered by the Court. The purpose of the report is:

- 1) To provide background information on defendants to assist the judiciary with determining appropriate sentences; and
- 2) To provide information to probation officers/institutional personnel to assist them in determining appropriate case planning/correctional programming for defendants.

Presentence Investigations contain the following information:

- official and defendant's version of offense;
- victim and restitution information (to include victim comments and statement of pecuniary damages);
- criminal record (to include juvenile and adult placements);
- family history;
- educational background;
- employment history;
- marital status and living arrangement;
- medical/psychiatric history;
- drug/alcohol usage;
- defendant's attitude;
- an evaluation of the defendant's needs, capabilities, and resources available to meet these needs;
- sentencing recommendation with reasons to support the recommendation

Additionally, in reports completed on persons convicted of sex offenses, the defendant's sexual history and relevant evaluations/assessments are included.

Presentence Investigations: 799

Program/Treatment Services Overview – continued

PROBATION

The largest program in Community Corrections serves as a major alternative to prison and jail incarceration. Offenders on probation undergo classification assessment, case planning, referrals to local treatment agencies, employment counseling and placement. Payment plans are monitored and offenders are held responsible for making restitution payments to victims.

Probation supervision provides structure in accordance with the assigned level of supervision based on the Iowa Risk Assessment/Reassessment. Additional assessments also identify offenders' needs, and corresponding conditions are imposed which requires offenders to confront the factors motivating the criminal behavior.

⇒ New Admissions:	2,440
⇒ Closures:	2,520
⇒ Active on 6/30/13:	3,102
⇒ Offenders Served:	5,757

NOTE: Totals above include all probation cases (sex offenders, low-risk probationers, intensive supervision, etc.). Each section below will have the individual totals for the supervision status.

PAROLE

Offenders released from prison, or from the residential OWI program, by the Board of Parole are supervised under the structure of parole to address high needs while monitoring and containing high-risk behaviors. The assessment and case management processes of parole are similar to that of probation offenders. Parolees are typically supervised at higher levels to provide additional support and structure during the critical period of transition from incarceration to community life. Emphasis is placed on offender transitional services. The district remains committed to improving offender reentry efforts. In accordance with an emerging body of evidence-based practices, reentry plans are developed with active offender participation to identify top criminogenic needs and planned interventions.

⇒ New Admissions:	225
⇒ Closures:	197
⇒ Active on 6/30/13:	221
⇒ Offenders Served:	413

NOTE: Totals above include all parole cases (sex offenders, intensive supervision, special sentences, etc.). Each section below will have the individual totals for the supervision status.

INTERSTATE COMPACT

The Interstate Commission for Adult Offender Supervision (ICAOS) is charged with overseeing the day-to-day operations of the Interstate Compact for Adult Offender Supervision. The Commission is a quasi-governmental administrative body vested by the states with broad regulatory authority. The Interstate Compact is a formal agreement between member states that seeks to promote public safety and victims' rights by systematically controlling the interstate movement of certain adult offenders. All 50 states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands are members of the Compact.

The Interstate Compact Offender Tracking System (ICOTS) is a web-based application launched in 2008 that allows member states to facilitate all compact business processes. ICOTS provides a managed workflow and maintains a database of offender transfer requests. In FY 2013, the number of transfer requests processed decreased by nearly 1 percent and is 4.6 percent below the historic figure set in FY 2011. Incoming cases to Iowa totaled 1, 499; outgoing totaled 1,338.

Program/Treatment Services Overview – continued

The demographic characteristics of the interstate offender population continue to be consistent with those offenders on state and local supervision when measured by gender, age and race. Male offenders on compact supervision are over-represented in both the probation and parole population. Of those offenders on compact supervision, 78.6% are male and 21.4% are female. This is consistent with the general probation and parole population according to the Bureau of Justice Statistics 2009 report. The top five crimes of conviction (Dangerous Drugs, Assault, Traffic Offenses, Burglary, and Larceny) account for over half of the total. Offenders who were a resident of the receiving state constituted the group most likely to have its request approved. In contrast, discretionary transfer requests are the least likely to be approved. The rate of acceptance for a discretionary transfer varies widely across the country with geography playing a significant role. The Midwest Region, with an average acceptance rate of 59 percent is most likely to accept a discretionary transfer.

⇒ New Admissions:	60
⇒ Closures:	58
⇒ Active on 6/30/13:	112
⇒ Offenders Served:	164

MONITORING AND MAINTENANCE PROGRAM (MMP)

The program began in May 2004 for low risk and minimum supervision cases scoring 11 or below on the Iowa Risk Assessment/Reassessment. Probationers are required to report changes immediately via program phone line, complete monthly reports, and meet with the supervising agent as required. Probationers are monitored for completion of financial obligations, court-ordered requirements, and law violations.

⇒ New Admissions:	333
⇒ Closures:	270
⇒ Active on 6/30/13:	374
⇒ Offenders Served:	639

SELF-SUPERVISED PROBATION (LOW RISK PROBATION)

The Sixth Judicial District developed a program to divert low-risk offenders from traditional supervised probation in response to a legislative mandate to reduce services to misdemeanor offenders. The self-supervised offender must fulfill court-ordered obligations just as offenders on supervised probation; however, the offender is responsible for completing these obligations on their own. The Department of Correctional Services staff are responsible for preparing probationary compliance reports, which are sent to the Judge to determine closure.

⇒ New Admissions:	1,715
⇒ Closures:	1,810
⇒ Active on 6/30/13:	1,404
⇒ Offenders Served:	3,197

Program/Treatment Services Overview – continued

SEX OFFENDER PROGRAM

The District provides treatment programs and surveillance (including GPS) to those offenders who commit sex crimes. Treatment is enhanced by the use of polygraph, physiological assessment, and psychological assessment. Offenders are responsible for paying for their own treatment.

We had 68 new intake enrollments of sex offenders into the SOP Unit. We had 77 sex offenders serving their special sentence parole at the end of the fiscal year.

There were 108 Polygraph examinations completed in the SOP Unit. There were also 21 Psychosexual Evaluations or Assessments completed. There were 10 AFFINITY Assessments completed.

The SOP Unit conducts ongoing treatment groups. Currently there are 6 primary groups, 4 maintenance groups, 3 Accountability Groups (Carey Guide), 1 women's group, and 1 special needs group for MR/DD or lower functioning offenders. In addition, 2 special needs offenders received individual curriculum services of the psychologist. We utilize the AFFINITY Assessment in most cases needing physiological assessment. The AFFINITY can be administered by multiple clinicians within the agency versus having a single PPG operator.

We previously developed curriculum for a victim survivor group for offenders' who were abused as children. We continue to provide the Sexually Abused Men (SAM) group curriculum on an as needed basis. We completed one SAM Group in Linn County this fiscal year.

During this fiscal year, there were 94 offenders being monitored on electronic monitoring (EM). There were also 16 polygraph examinations completed on federal offenders entering or enrolled in our SOP program.

Intensive Supervision – Sex Offenders

⇒ New Admissions:	68
⇒ Closures:	60
⇒ Active on 6/30/13:	87
⇒ Offenders Served:	182

Special Sentence – Sex Offenders

⇒ New Admissions:	24
⇒ Closures:	19
⇒ Active on 6/30/13:	77
⇒ Offenders Served:	86

PSYCHOLOGIST

The Psychologist ensures that appropriate services are provided to mentally and physically disabled clients. Mental health evaluations and referrals are made to local providers in the community. The Psychologist serves as a liaison between mental health, substance abuse treatment providers, and Department staff to help improve client services. The Psychologist also provides training to department staff to improve their ability to assess mental health issues and prepare effective case plan strategies.

The Psychologist is also an active member of the Sex Offender Treatment Unit and conducts testing and Psychosexual Evaluations. The Psychologist has also been involved in the facilitation of Sex Offender Treatment groups, including the use of a specialized curriculum for lower functioning offenders.

The Psychologist is a statewide trainer on the Levels of Services Inventory – Revised (LSI-R) which is used throughout the Judicial Districts. He is involved in the quality assurance of that instrument to ensure accurate assessment and case planning. In addition, he conducts standardized risk/needs assessments on our federal offenders and is actively involved in offender employment services. This includes resume writing, interviewing skills and re-entry planning.

Program/Treatment Services Overview – continued

HIGH RISK UNIT

The High Risk Unit (HRU) officers provide support to field service and residential units in all six counties of the district. They conduct checks in the community on probationers, parolees and residential clients to ensure compliance with supervision conditions. Detecting violations allows for intervention before new victims are created. It also allows for intermediate sanction or treatment responses. The Unit also includes three neighborhood based officers each supervising some of the highest risk offenders in Linn County. HRU has two officers working in Federal Joint Task Forces - Drug Enforcement Agency (DEA) and the FBI "Safe Streets" initiative. HRU also has one officer assisting the Department of Criminal Investigations (DCI) on a part-time basis. HRU has continued to participate in several collaborative efforts with local law enforcement including intelligence sharing, search and arrest warrant execution, and fugitive apprehension.

⇒ Residential/Furlough Checks:	474
⇒ Probation/Parole Checks:	3,887
⇒ Arrest Probation/Parole Warrants:	241
⇒ Arrest Probation/Parole Violations:	381
⇒ Arrest Absconders:	92
⇒ New Criminal Charges:	198

TOP 25

In response to a request by the US Attorney's Office for the Northern District of Iowa and as a part of their task force, "Project Safe Neighborhoods", the Sixth Judicial District Department of Correctional Services has established a list of approximately 25 offenders who present the greatest risk of violating their supervision. This has been a cooperative effort between the US Attorney's office, Linn County Attorney's Office and the Cedar Rapids Police Department. A list of objective criteria was developed to identify those offenders currently on supervision that have a lengthy history of criminal behavior focusing on violence, drugs, and/or weapon offenses.

Additionally, placement on the Matrix is also a deciding factor. Once identified, these individuals will be placed on intensive supervision to an agent in the High Risk Unit. The list is provided to local Law Enforcement who assists with monitoring of their activities. A zero tolerance approach is taken in response to violations. After immediate placement in jail for violations, a recommendation to residential, violators program, or revocation to jail or prison is the next step.

⇒ New Admissions:	21
⇒ Closures:	25
⇒ Active on 6/30/13:	15
⇒ Offenders Served:	39

Program/Treatment Services Overview – continued

ELECTRONIC MONITORING

Electronic monitoring equipment is used to augment supervision of offenders who require daily monitoring of their activities or are required by law to be monitored by this system. There are three different types: RF (radio frequency), VICAP (Video Information Capture) and the GPS (Global Positioning System).

The RF unit consists of an ankle bracelet transmitter and a receiver that attaches to the offender's home telephone service. The system provides the supervising agent a daily report of the offender's arrival and departure at their authorized residence as well as any curfew non-compliance.

The VICAP system is a deep-lung alcohol testing system using the latest fuel cell technology to report actual blood alcohol concentrations. VICAP consists of a handheld Breath Alcohol Tester to measure alcohol concentrations, and a digital camera to send digitized tests results and participant facial images (for verification that the offender being monitored is the one providing the sample) to a remote monitoring center. The VICAP system is unique in that it is a supervised test through the use of a streaming video provided from the digital camera connected to the monitoring center via the participant's phone line.

The GPS unit contains an ankle bracelet transmitter. The unit is called a WMTD (wearable miniature tracking device). The GPS system uses 24 satellites provided by the Department of Defense. The WMTD transmits a signal to three of these satellites, which allows the supervising agent to monitor the offender's activities and movements 24 hours a day through a secured internet site. The WMTD reverts to cell tower coverage to allow uninterrupted tracking due to satellite signal experiencing interference when the WMTD is indoors. With the legislative revisions to Chapter 692A SOR, the level of Electronic Monitoring and GPS for sex offenders continues to be determined through a comprehensive risk assessment approach.

BATTERER'S EDUCATION PROGRAM (BEP)

Batterer's Education Programming (BEP) is provided for individuals who are convicted of a Domestic Assault within the Sixth Judicial District. Historically, the Duluth education curriculum was the only curriculum that was used for BEP. However, with collaboration with Dr. Erika Lawrence and her team of research assistants from the University of Iowa a new curriculum was developed for this population. The name of this curriculum is ACTV (Achieving Change Through Value-Based Behavior). Within the Sixth District we currently have groups that are utilizing both curriculums. Programming begins with an intake and orientation session and then participants participate in twenty-four weeks of educational curriculum. Two trained co-facilitators, conduct the groups.

In the Duluth curriculum, the groups focus on power and control issues in relationships and use videotaped vignettes, structured discussion, and homework assignments. In the ACTV curriculum, the approach is using components of Acceptance and Commitment Therapy. The goal is to assist offenders in defining their true values and working with them as they move toward a life consistent with their values. This program is a collaborative effort between Community Corrections Improvement Association (CCIA) and the Sixth Judicial District Department of Correctional Services.

Program/Treatment Services Overview – continued

We also provide groups for women ordered to complete BEP, using the Moving On Curriculum. All participants complete an intake and orientation, followed by 24 weekly two-hour group sessions. There are female DCS staff trained to facilitate the groups on work time.

⇒ New Admissions:	320
⇒ Closures:	275
⇒ Active on 6/30/13:	559
⇒ Offenders Served:	856

WORKFORCE DEVELOPMENT

Workforce Development efforts began in December 1998, when the Southern Advisory Committee of our Department decided to launch an agency-wide employment continuum for offenders. Since that time new employment programs were created and implemented in the Sixth Judicial District of Iowa. Additionally, more assessment tools and certificates are being utilized to improve job fit and employability. Briefly some of these programs are:

- **Long-lasting Employment and Retention Network (LEARN):** This program is designed with the goal of assisting offenders in obtaining permanent full-time employment that matches each individuals' interest areas, aptitudes, career goals and criminogenic needs. It is likely the obtained job will be satisfying to the offender and therefore they will be productive and more likely to retain the job.
- **Job Coaching and Retention:** This is a service provided for offenders with chronic employment problems characterized by losing jobs, job-hopping, long-term under-employment, and poor work performance. Individual attention is given to the offender including the use of numerous specialized assessment instruments as well as counseling in an effort to help them attain and maintain appropriate meaningful employment. This new service has been quite successful with the population it serves.
- **Employability:** Workforce staff is utilizing evidence-based certificates and assessments to improve employability for offenders. Some of these certificates target the offender's ability to process and locate information, reading comprehension, and math skills. Furthermore, the Certificate of Offender Rehabilitation and Employability was developed to help employers better identify offenders that are ready to work and making strides towards reintegration. Other assessments measures key personality traits and behaviors that are crucial to successful job performance.
- **Mentoring:** This is an effort to match offenders with appropriate role models in the community.
- **Community Service/Service Learning:** Community service projects are selected for their content both in terms of what the project itself can offer the offender in service learning, and what the offender and the community partners can derive in understanding and appreciating on another as individuals. Also, the offender can gain a sense of connection to the community and pride in being a part of a restorative effort.
- **Community Partners:** The workforce development program strives to develop partnerships with other agencies and employers in an effort to promote employment.
- **Job fairs:** Workforce staff coaches and provides feedback to offenders from start to finish with local job fairs. Workforce staff prepares offenders for job fairs by assisting offenders with completing applications, resumes, and the development of soft skills, networking, and mock interviews. Additionally, workforce staff uses job fairs as an opportunity to meet local employers and educate employers on the benefits of hiring offenders.

While workforce development remains a valued endeavor, we have been in a state of transition regarding available services as we seek to optimize resource allocation throughout the district. Though services were reduced in some areas of workforce development in the past year staff remain dedicated to utilizing available services both within and external to district services to ensure high levels of meaningful employment for our clients.

Program/Treatment Services Overview – continued

RESTORATIVE JUSTICE

Restorative justice is a philosophy based on the belief that when offenders commit crime they injure the victims, the community, their families, and themselves. It supports and serves the victim as central to the justice process and elevates the role of crime victims and communities in the process of holding offenders accountable for their behavior, while offering offenders the opportunity to directly make amends to the people and community they violated.

It is a philosophy of healing, reintegration and community building. It puts the "community" back into corrections. It challenges us to create partnerships to get ahead of crime.

Practices which incorporate restorative principles help repair the harm to relationships caused by acts of wrongdoing. They are focused on building offender accountability to the victim and community to repair harm (to the extent possible), and develop offender competencies targeted at issues underpinning their criminal behavior so they learn something in the process that works to prevent another victimization. Examples of practices that build upon restorative principles are: Family Group Conferencing; Family Team Meetings; Circles of Support and Accountability; Talking Stick Circle; Accountability Boards; Restorative Community Service (statistics recorded separately); Victim Offender Mediation; Victim Impact class; Adult Mentoring Program.

ADULT MENTORING PROGRAM

The Adult Mentoring Program is offered to offenders on active supervision and includes 1:1 mentoring as well as Circles of Support and Accountability (CSA). Mentors are trained community volunteers that are matched with offenders and help develop a positive, pro-social support system. In addition, mentors may provide assistance in the areas of education, employment, financial literacy and housing.

- 40 mentor matches in Linn County
- 18 mentor matches in Johnson County
- 65 active mentors involved in matches throughout the year
- 42 offenders/mentees actively matched throughout the year
- 6 mentor applications pending
- 2 mentee applications pending
- 33 new mentors trained this year
- 22 community events/presentations

Circles of Support and Accountability (CSA) are a group mentoring service offered to offenders on active supervision. A CSA matches trained volunteers from the community (usually 5-7) with an offender to help build positive pro-social relationships and address the many challenges offenders face as they re-enter the community. Circle members and the offender meet regularly (1-2 times per month) using a "circle" dialogue process to build trust, provide support, and to develop and pursue an action plan that moves towards accountability and responsible living. Core areas that are addressed include residence, education/employment, social supports and treatment/transportation.

- 8 active CSA's in Linn County
- 3 active CSA's in Johnson County
- 38 active CSA volunteers- 29 in Linn County; 9 in Johnson County

In 2010, the 6th District received a Second Chance Re-Entry grant for the Adult Mentoring Program that was instrumental in program growth. That grant ended March 31, 2013.

Program/Treatment Services Overview – continued

VICTIM SERVICES PROGRAM

From July 1, 2012 to June 30, 2013 services were delivered to 58 new victims and 80 contacts were made with victims for ongoing services. Contacts are by phone, mail, or in person. A phone call may last anywhere from 10 to 30 minutes or more depending on the crisis stage of the victim and the needs of the victim. Victims are met in person either in the advocate's office or at a neutral location. All contacts are followed up by phone or by letter. One victim may have several contacts with the Advocate.

The Victim Advocate also sends out notification letters to registered victims when an offender from an Institution is expected to arrive in one of the facilities in the district. Upon request from victims, the Advocate is able to register them in the ICON database under Record Alert as registered victims.

This process gives probation officers the opportunity to know who the victim is and to know they are receiving services from this agency. A confidential comments screen was also developed for probation officers to enter notes from victims in a safe and confidential way, separate from the offenders generic notes.

As part of advocating for victims, the Victim Advocate has also been involved in individual meetings with offenders to help them understand victim needs and their responsibility to victims.

Many offenders have had their own victimization issues that need to be addressed and are then given services or referrals to proper agencies.

Victim Impact Awareness Class:

Between July 2012 through June 2013, Linn County has provided four (4) Victim Impact classes for offenders and a minimum of six (6) panel presentations were made (see table below for breakdown).

Forty-seven (47) victims, survivors, victim advocates, law enforcement and community members have served on panels. Offenders complete projects which benefits victims to reinforce their responsibility to help repair the harm. They help with projects during Victims' Rights Week in April of each year by making ribbons, donating time to help set up tables and chairs for events, and by being present to support the events.

* Presentation to college students

Program/Treatment Services Overview – continued

Victim Advisory Committee:

The Victim Advisory Committee in Linn County provides a yearly fundraiser, which raises money for victim needs, such as travel to court, educational conferences, self-help books, child care while they attend court or sit on panels, and to provide healing baskets for victims. In 2013, the committee provided one chili fundraiser. The VAB donated to Waypoint Services, money for cab fares for victims of domestic violence. The committee completed the majority of the victim garden by putting in a ribbon shape walkway and purchasing the center monument with the name of the garden on one side (The Leah Wara Memorial Garden) and the quote for (Fulfilling The Promise To All Victims) on the other side. The garden had several donations to help with the garden from community businesses. The homicide victims bricks that were along the river and in the flood of 2008 were brought over from the original place and put into the new garden. The second Victim Rights Week activities for opening ceremony were held at the Department of Corrections. Homicide survivors put the yearly memorial crosses in the garden. The dedication of the garden was provided.

Several members of the committee continue to sit on victim impact panels. As a result, Anamosa Prison Inmates continue a SAVE group (seriously acknowledging victim's emotions). The Inmates also invite victim panelist into the prison during Victim Rights Week to honor and thank them for sitting on panels. One inmate continues to paint portraits for homicide victims and another who does woodwork, donates items like a clock or chest that are then donated to the VAB to auction off to provide extra funds for the victim fund. This year chest was rallied off. The VAB made \$350 for the chest.

In 2012, the Linn County board lost four members, but also gained a couple new people as well. They are working to reorganize, look at any goals not completed in past months to work on in 2013.

The Victim Advisory Committee in Johnson County area also developed a Victim Memorial Garden on a smaller scale at the Johnson County facility in Coralville.

Johnson Co. Victim Advisory Board members are also reorganizing. They are working to recruit more members for their committee as well. They continue to donate time and energy to helping to provide meals at the community's soup kitchen for people in need.

Victim/Offender Dialog (VOD):

The Victim Offender Dialog Program offers victims the opportunity to meet with the offender face-to-face in a safe setting with a trained volunteer facilitator.

The use of Dialog gives voice to both victim and offender and leaves open more opportunity for change. There were two offenders who were interested in making amends, however the victims in these cases were not interested which is always their choice. The offenders were offered the opportunity to write apology letters and they were filed in the Advocate office should the victim ever want them. This is still a good opportunity for offenders to try to do the right thing by a sincere apology.

Training:

In promoting victim sensitive practices within corrections and the community, trainings continue as new staff are hired. The victim services program also is responsible for the implementation of the Staff Victimization and Support Services Team. Training was completed with staff and management on Bullying in the workplace to sensitize and bring awareness of staff victimization.

The Victim Advocate continues to be instrumental during National Crime Victims' Rights Week, networking with other agencies to bring in a national speaker to promote understanding of victim issues and victim sensitive practices. Activities were also supported by other staff, along with offenders.

Program/Treatment Services Overview – continued

Community & Restorative Justice:

The Victim Advisory Boards are made up of victim survivors and other persons from victim service programs. Victim Impact Panels and presentations from the Victim advocate are reflected below. The program has several volunteers; however some are inactive depending on schedules and activities. Victim contacts are ongoing year round.

Program Volunteers	32
Victim Advisory Board Members	
o Linn County	12
o Johnson County	5
Victim Impact Panel Presentations	5
Victim Offender Dialog	0

Victim Memorial Garden

This has been a productive year for the development of the memorial garden located on the Sixth Judicial District Department of Correctional Services complex at 951 29th Ave SW, Cedar Rapids. Through CCIA, the victim fund and community donations, the garden has a gazebo, the ribbon walkway with an angel and monument to come. A bridge has just been added. The bricks from the old memorial site which was flooded had been moved over to the Sixth District complex in Linn County and will be added to the garden.

The Victim Advisory Board members have plans to add photos and information about the garden on the victim website located within the Department's web site. The clients who need community service will help to maintain the garden. The garden was also named after a homicide victim, Leah Wara, who was killed in 1989.

The second opening ceremony for 2013 Victims Rights Week was held at the Sixth Judicial District Department of Correctional Services complex.

RESIDENTIAL FACILITIES:

The District has three residential facilities that offer the highest structure and control and are therefore designed for the higher-risk offender who requires such enhanced supervision. The residential facilities also offer short-term placements for offenders under supervision in the community in an effort to "stabilize" the offender, thus avoiding possible revocation. Residential facilities in the Sixth Judicial District provide housing for male and female offenders on Probation, Parole, Work Release from an adult institution, and Federal offenders.

Gerald R. Hinzman Center (capacity – 86) in Linn County provides services to male and female offenders. Male offenders include: Probationers and Federal clients. Women offenders include: Work Releasees, 2nd and 3rd Offense drunk drivers, Probationers, Parolees and Federal clients.

Hope House (capacity – 58) in Johnson County provides services for male Work Releasees, 2nd and 3rd Offense drunk drivers, and Probationers as ordered by District Court.

Program/Treatment Services Overview – continued

Lary A. Nelson Center (capacity - 93) in Linn County provides services for male Work Releasees who are returning to the community from a State institution as ordered by the Iowa Board of Parole, and male 2nd and 3rd Offense drunk drivers as ordered by District Court, and also accepts short-term placements of Parolees.

Programming in the Facilities

Each facility resident is involved in a treatment program designed for that individual. The goal is to enhance that resident's ability to be a success. Some programs, such as money management and employment/education, have been mentioned previously.

Accountability is stressed and enforced at a high standard. In addition, there are numerous program and treatment opportunities for each resident based upon their assessed need including:

- Education – GED, High School, College opportunities
- Sex Offender Programming
- Substance Abuse Counseling and Treatment in both individual and group settings
- In-house AA
- Cognitive Restructuring
- Mental Health Counseling/Intervention and referral
- Batterer's Education Program
- Recreational activities
- Community Service opportunities
- Job Development

⇒ New Admissions:	531
⇒ Closures:	466
⇒ Active on 6/30/13:	241
⇒ Offenders Served:	752

NOTE: Total include R, VC & VT beds

All residents are required to surrender their earnings, which were disbursed as follows:

- Court costs, restitution: \$ 99,165.63
- Facility rent, fees, etc.: \$ 1,078,684.58

ANCHOR CENTER **System Overview**

In recent years, the Criminal Justice System has seen a significant increase in the number of individuals that have a diagnosed mental health disorder. According to a report produced in 1999 by the Bureau of Justice Statistics it was stated that 16% of individuals in our national criminal justice system have a diagnosed mental health disorder. However, by 2005, it stated that approximately 50% of the individuals in our prisons and jails have a mental health disorder (James & Glaze, 2006). In addition, of that number, 75% also have a diagnosed substance use disorder.

As of December 31, 2006, 3,535 of the 8,838 individuals incarcerated by the Iowa Department of Corrections had a diagnosed mental health disorder (Mentally Ill Offenders in Iowa's Prison System: Update, 2007). More specifically, 60% of incarcerated women and 31% of incarcerated males comprised this population. In addition, 47.2% of the individuals meeting the criteria for one mental health disorder diagnosis also met the criteria for at least one additional diagnosis such as a substance use disorder (Iowa Department of Corrections, 2006).

Program/Treatment Services Overview – continued

The Chief Judge of the Iowa Supreme Court, Chief District Court Judges, and State Corrections Administrators have seen the need, and lack of, mental health services for the correctional population. Therefore, efforts have been made within the Iowa Department of Corrections to address the needs of these individuals. Institutions have developed critical care and special needs units within the prisons to provide more specific and individualized treatment settings to these inmates. The Department has also begun to work with these individuals before release and re-entry into their communities through re-entry programs.

The number of individuals with mental health disorders being released on parole into the correctional services districts ranges from 22.5% and 36.0%. Various districts have set up community based programs to address the needs of these individuals. However, very few residential settings are available to these individuals. The ANCHOR Center aims to fill this critical gap in services.

Background

To serve the growing population of offenders with serious mental illness, the Sixth District developed the idea of building a residential mental health facility. By creating this unique and innovative facility, the treatment needs of these individuals would be addressed, while also providing the needed security and supervision. With the need and the vision in place, the legislature was the next step.

In the 2006 Iowa Legislative session the Sixth Judicial District Department of Correctional Services was allocated \$2 million dollars to be dispersed in two installments of \$1 million in the 2006 fiscal year and \$1 million in the 2007 fiscal year to build the mental health residential facility. This facility was to be built on the Correctional Services Complex in Cedar Rapids, with the objective of serving individuals with mental health needs under the supervision of the Sixth Judicial District.

The Client Services Advisory Committee was instrumental in developing the physical plan for the facility as well as initial planning for the type of programming to be provided. The Committee met monthly with sub-committee work as necessary. The physical plans included heavy consultation of David Sine and James Hunt's "Design Guide for the Built Environment of Behavioral Health Facilities," which specifically included consideration of various hardware and furniture that has been developed for this type of facility. In addition to helping with the physical plans for the ANCHOR Center, the committee identified the need for ANCHOR Center to function as an assessment and evaluation unit where each client's needs would be identified and serve as the basis for a comprehensive, individualized treatment plan aimed to facilitate re-integration to the community. By providing a structured environment to promote stability and evaluation with timely referral to community partners ANCHOR Center was devised to be a compliment to the existing service structure rather than supplant any existing services.

A residential facility of this type is very uncommon, so much that it may be the first of its kind. With that, a staffing pattern that includes non-traditional residential correctional staff is essential to its success. Intensive services within the facility are designed to adequately assess and evaluate the variety of needs that these clients have, but then to implement and connect them to community resources that are going to enhance their ability to be successful. The facility will also have to accommodate diverse and sometimes significant medical needs of this population.

Finally, adequate and appropriate staff to client ratios is essential, but so is the need to have well trained staff. Staff are trained to deal with this population from a clinical standpoint as well as a correctional standpoint. These two components work together as a team to provide treatment and supervision. With that, an intensive training protocol will need to be provided initially as well as on an on-going basis.

Program/Treatment Services Overview – continued

Current Status

ANCHOR Center has been operational on a field/outpatient basis for several years. Programs provided at the facility are outlined in following sections. At the end of the current fiscal year we learned there would be additional funding to open ANCHOR Center residential services. We anticipate opening the residential facility in FY 14 though there will be some challenges to optimize allocated resources and achieve the level of programming initially envisioned by the Client Services Committee.

The ANCHOR Center in Cedar Rapids, was completed in November, 2008

In general, the criminal justice system will continue to struggle with how to appropriately work with these individuals. The Sixth District Department of Correctional Services hopes the ANCHOR Center can become a model to other districts in Iowa, as well as to the nation, as an effective program for clients with mental health and/or substance use disorders within the criminal justice system.

SUBSTANCE ABUSE EVALUATION PROGRAM (SAEP)

The Substance Abuse Evaluation Program was developed to address the need of many clients who are involved in the criminal justice system and are required by the court to get a substance abuse evaluation. Iowa Code requires that all individuals charged with Operating While Intoxicated (OWI) complete a substance abuse evaluation. These evaluations must be completed by a licensed substance abuse provider. In 1999, the Sixth Judicial District Department of Correctional Services was the first correctional department in the state of Iowa to become a licensed provider. In 2009, that program became part of the ANCHOR Center correctional outpatient services licensure.

Through this program, individuals who have been charged with an OWI meet with the SAEP staff to complete a substance abuse evaluation. The results and recommendations resulting from the evaluation are then submitted to the court to work to assist these individual's in gaining the appropriate education/treatment that is needed. The evaluation results are also, with a release of confidential information, submitted to treatment agencies within the community for services. The individual is then responsible for the completion of the recommended treatment.

366 SAEP assessments were completed

TREATMENT ACCOUNTABILITY FOR SAFER COMMUNITIES (TASC)

The Treatment and Accountability for Safe Communities program began in 1987 as part of a five year federally funded grant. The TASC program is staffed by three certified alcohol and drug counselors who are Department of Correctional Services' employees. The TASC staff performs a substance abuse evaluation for clients who are currently under correctional supervision. From the evaluation, clients may either be referred to the Strategies for Self Improvement and Change program or to community treatment agencies for further treatment if deemed appropriate. The client is then responsible for attending and completing the treatment that is recommended as part of their correctional supervision.

224 TASC evaluations were completed

Program/Treatment Services Overview – continued

MENTAL HEALTH JAIL DIVERSION/PRETRIAL RELEASE

The Mental Health Pretrial Release Program is designed for defendants who reside in Linn County. This program was established as a collaborative effort with Linn County Mental Health and Disability Services to provide jail diversion and reentry services for people who have been diagnosed or thought to have a mental illness.

Potential defendants must meet the following criteria to participate in the program:

- Been arrested for felony or aggravated misdemeanor offense(s), although a serious misdemeanor assaultive offense may be considered.
- Consented to and completed a Pretrial Interview; scoring in the -1 to 4 range on the interview (those who score in that range are currently recommended to be held on cash bond or released with supervision to the Department of Correctional Services).
- Agree to participate in all aspects of the program, and they must agree to sign all applicable releases of information.

The Department of Correctional Services Pretrial Interviewers, the Judiciary, and the Linn County Jail staff will refer potential candidates for the program. The Department of Correctional Services assigns a Probation/Parole Officer (PPO) to this program that will:

- Contact the referred individuals to determine their interest in participating in the program.
- Conduct initial mental health screenings on the referred defendants, using the MHS (mental health screening instrument).
- Have defendant sign all applicable releases of information.
- Schedule the defendant for a full mental health evaluation to be conducted by the Abbe Center for Community Mental Health, following consultation with the program supervisor or designee.
- Act as the primary case manager/pretrial officer for the defendant until their final Court disposition or until the defendant has attained a level of stability that a lesser supervision is approved.
- Review needs identified by the Abbe Center with the defendant and assist the defendant in addressing those needs.
- Oversee and enforce defendant's compliance with the Department of Correctional Services Pretrial Release agreement and notify the Court of the defendant's non-compliance with any conditions of release. (A special condition of the pretrial release agreement will be that the defendant be required to make their residence accessible for home visits.)

Released from jail to the program:	36
Successfully discharged:	27
Revoked and returned to jail:	8
Mental Health Assessments completed:	65
Mental Health Evaluations completed:	58
Jail inmates who received services:	21
TOTAL number of jail days saved in FY'13: 10,249	

Program/Treatment Services Overview – continued

DRUG TREATMENT COURT (DTC)

The Drug Treatment Court was established in 2007 within the Sixth Judicial District from funding appropriated by the state legislature. Drug Courts were originally established in the United States in 1989; later in 1997 Mental Health courts were also established within the United States. Both of these are specialty courts designed to address the unique needs of clients with either substance use or mental health needs. However, the criminal justice system has many individuals who have co-occurring disorders; those individuals with both substance use and mental health disorders. While many specialty courts attempt to screen individuals for both disorders, they also attempt to eliminate individuals who have both disorders.

The Sixth Judicial District Drug Treatment Court Program is designed to provide intensive community supervision to probation clients who would be sent to prison if the program did not exist. The clients served in this program are those who have abuse and dependency issues related to one or more substances, and who are sentenced to probation on an Aggravated Misdemeanor or Felony charge. Many of the clients served in this program also have mental health issues of varying levels of severity.

Through supervision in the Drug Treatment Court Program, and through use of restorative justice principles, individuals are encouraged to invest in their community. They are encouraged to create ties to pro-social people and activities that will provide them the support needed to avoid relapse and the behaviors that lead to recidivism. Individuals are provided with substance abuse treatment and are also assisted in accessing mental health services, obtaining safe and stable housing, and obtaining employment. By investing in the community and creating these ties to supportive services, individuals involved in the Drug Treatment Court Program are better equipped to be self-sufficient and able to maintain the positive changes they create even after community supervision is completed.

The Drug Treatment Court Team attends regular court hearings where they are expected to update the Drug Treatment Court Team and their peers on their progress towards their case plan goals. The team consists of the judge, prosecuting attorney, defense attorney, drug treatment court coordinator, drug treatment court supervising agent, community substance abuse agency representative, and a mental health professional. The team rewards positive behavior with incentives, such as certificates, small prizes, and positive feedback from the judge. Negative behavior earns a sanction from the team, which could include loss of a privilege, an assignment of some sort, or jail time. In addition to court appearances, the client is expected to see their probation officer, attend all recommended substance abuse treatment, and complete random drug and alcohol testing as requested.

One unique aspect of the Sixth District's Drug Treatment Court is that the program addresses co-occurring disorders. According to the Substance Abuse and Mental Health Services Administration (SAMHSA), which is a major contributor of research and evaluation within the substance abuse and mental health arenas, integrated treatment for substance abuse and mental health disorders is an evidenced based practice and proven to be more effective than independently or paralleled treatment of these disorders.

An additional component of the Drug Treatment Court Program is a result of a federal enhancement grant from BJA and SAMHSA which funds employment services for the clients. Due to this additional funding, Goodwill Employment Services also is a part of the Drug Treatment Court team at this time. The clients have been able to receive individual job seeking assistance and job coaching, job classes, and assistance with job seeking through incentives such as bus passes and gift cards to purchase

Program/Treatment Services Overview – continued

interview clothes or equipment for work. This was a time limited grant, and funded these services through September 2013. At this time, community resources are being explored in order to continue to offer these opportunities to the clients.

The Drug Treatment Court program is a phase-based program, consisting of 5 phases. The minimum amount of time needed to complete all 5 phases is 12 months, and many individuals will likely require more time than this to complete the program. The phases begin with assessment and evaluation, referral for appropriate level of service, and case plan development. As an individual progresses through the phases, based on their individual case plan, the requirements and expectations are also increased. Failure to meet the outlined expectations will be addressed during hearings with a variety of sanctions, which could include anything from volunteer hours to jail days.

The Linn County Drug Treatment Court Program accepted a total of 40 clients between July 1, 2012 and June 30, 2013, in addition to the 37 clients already involved in the program as of July 1, 2012. During those same dates, 32 clients were revoked and required to serve their suspended prison sentence. Twelve clients completed the first 5 phases of the Drug Treatment Court Program and were in the Aftercare Supervision phase as of July 1, 2013. Additionally, 7 clients discharged all probation supervision successfully between the dates of July 1, 2012 and June 30, 2013.

The Johnson County Drug Treatment Court Program accepted a total of 14 clients between July 1, 2012 and June 30, 2013, in addition to the 23 clients already involved in the program as of July 1, 2012. During that same time frame, 10 clients were revoked and required to serve their suspended prison sentence. Eight clients completed the first 5 phases of the program and were in the Aftercare Supervision Phase as of July 1, 2013, and 4 additional clients discharged all probation supervision successfully between the dates of July 1, 2012 and June 30, 2013.

	Linn County DTC	Johnson County DTC
Clients Active as of 6/30/13	37	23
Clients Admitted 7/1/12 to 6/30/13	40	14
Number of Clients Revoked 7/1/12 to 6/30/13	32	10
Clients Graduated to Aftercare as of 6/30/13	12	8
Clients Completing Program 7/1/12 to 6/30/13	7	4

During the last year, participants in the Drug Treatment Court Program have been assisted in accessing a variety of community resources to address their individual needs. Many of these resources addressed their substance abuse treatment, mental health, or living situations. Between the two counties, there have been 20 placements in residential substance abuse treatment between July 1, 2012 and June 30, 2013. During that same timeframe, there have also been 5 placements in a substance abuse halfway house, 4 in community corrections halfway house, and 18 in community based halfway house.. Other community referrals include those to mental health treatment, transportation assistance, medical treatment facilities, domestic violence intervention counseling, family counseling services, and parenting groups.

Program/Treatment Services Overview – continued

MENTAL HEALTH REENTRY PROGRAM

The Mental Health Reentry Program was established in 2001 as a collaborative effort with Linn County Mental Health and Developmental Disability Services (MHDD) and the Sixth Judicial District to provide jail diversion and reentry services for people who have been diagnosed or thought to have a mental illness and who are involved in the criminal justice system. The Mental Health Reentry Program expanded to Johnson County in 2008 due to the successful outcomes that were being achieved. The program is designed to provide a high level of service and intensive supervision for individuals returning from prison who are on parole and have been diagnosed with chronic mental illness. Participants must have a diagnosis listed in the Diagnostic and Statistical Manual in the Axis I category. Common diagnoses seen in this program include schizophrenia and other psychotic disorders, mood disorders (depression, anxiety, panic), and bipolar disorder. Of those clients admitted to the program, many also have had a significant history of substance use and/or abuse.

During the critical period of transition from the institution back to the community, MHRP staff are sensitive to the special needs of these clients and are focused on making appropriate referrals and monitoring follow through and compliance with treatment objectives. Without extra services, supervision, and support, clients with co-occurring disorders often fall through the cracks of helping agencies and the criminal justice system. They can get caught in the complexities of both the treatment delivery system and the criminal justice system. Therefore, this program is designed to provide specialized supervision, partnered with a connection to community resources that works to positively impact the successful re-integration of clients with co-occurring disorders into their communities.

Over the course of the years, funding for these programs has been impacted. During the course of the fiscal year the State of Iowa, specifically targeting the 6th and 1st Judicial Districts, sought Congressional Earmark funding for Transitional Mental Health Reentry. We were awarded this funding which includes funding for a specialized case manager and psychiatric services. The funding began on July 1, 2011.

⇒ New Admissions:	80
⇒ Closures:	38
⇒ Active on 6/30/13:	105

Community Accountability Board

The Community Accountability Board (CAB) is a model of community collaboration consistent with the District's restorative justice philosophy. CAB was initially only a component of the Mental Health Reentry Program, however due to successful outcomes, CAB was expanded to include other parole and probation clients who have a mental health diagnosis and the need for connection to community resources.

The CAB was originally only an intervention provided in Linn County, but has now been expanded to Johnson County. The CAB assists our clients in reintegrating into their respective communities. Members of the CAB represent agencies in the following areas: mental health treatment; family and individual therapy; vocational services; education; employment; law enforcement; mental health advocacy; and neighborhood and faith-based organizational support.

There are two separate boards, one in Linn County and one in Johnson County, each meets monthly for a two hour session. Each board consists of approximately ten members. Three clients are generally seen at each CAB meeting. Clients are in need of extra support and assistance, especially those in the early stages of the program, are seen monthly by the CAB. Clients making satisfactory progress in the program are generally seen by the CAB every 2-3 months. CAB members make their expertise, experience and support available to the clients they see in these meetings. Many CAB members also make themselves available to clients outside the board meeting, via phone contact or visits at their respective agencies. This "personal touch" is especially valuable to mental health clients, who often experience difficulty accessing and following through with helping services. It also has the effect of encouraging clients to utilize these same services after they complete their involvement with correctional supervision.

STAFF/OFFENDER COMMUNITY SERVICE/WORK CREWS

Community Service Program

Guiding Principles:

The Community Service Program provides both individual community service placements as well as group community service opportunities. The program embraces the following guiding principles:

- Individual community service placements provide meaningful service to non-profit entities.
- Group community service projects involve staff and/or placement staff working with clients to complete projects vital to community enrichment.
- Community service builds healthy relationships in the community and promotes positive staff/client relationships.
- Community service promotes healthy alternative leisure time activities.
- Community service models appropriate work-related behaviors.
- Community service offers skill-building opportunities, vocational exploration opportunities and promotes self-confidence in these endeavors.

Types of Community Service:

During fiscal year 2013 community service crews assisted many local agencies with needed services. The following are examples of the activities the work crews participated in:

- Local nonprofits
 - Habitat for Humanity Restore - crews help move and organize donations;
 - Green Square Meals —crews prepare and serve food along with cleaning and stocking shelves
 - Humane Society—cleaning up brush on vacant lot;
 - Iowa City Bike Library—fixing and restoring bikes for children;
 - North Liberty and Coralville Food Pantries – deliver food, stock shelves and cleaning;
 - Mayors Youth Empowerment Program (MYEP) facility – moved furniture and painted walls.
- Festivals — crews assisted with the set-up and break down for local festivals. Some of these festivals included:
 - Fry Fest
 - Summer of Arts
 - Hog Wild Days
 - Solon Beef Days
 - Hoover Fest
 - Jones County Fair
 - Tiffifest
 - Martin Luther King Day
 - Native PowWow
 - Jazz Festival

Staff/Offender Community Service/Work Crews – continued

Statistics:

A quick overview of community service hours completed is below:

Hope House Courtesy Community Service	506
Hope House Open Work	12
Hope House Program Requirement	71
Johnson Batterer’s Education Program	68
Johnson Community Service as Assigned	100
Johnson Community Service Restitution	2,377
* Johnson Community Service Sentencing	1,779
+Johnson County Work Crew hours (9/1/12 – 8/31/13)	7,015
Number of project completed (9/1/12 – 8/31/13)	377
JOHNSON COUNTY =	11,928 hours
* Linn Community Service Sentencing	1,140
+ Linn County Work Crew hours (9/1/12 – 8/31/13)	3,265
Number of projects completed (9/1/12 – 8/31/13)	116
LINN COUNTY =	4,405 hours
Tama Community Service as Assigned	1,068
Tama Community Service Restitution	1,806
* Tama Community Service Sentencing	144
+ Tama County Work Crew hours (9/1/12 – 8/31/13)	1,366
Number of projects completed (9/1/12 – 8/31/13)	104
TAMA COUNTY =	4,384 hours
TOTAL FOR DISTRICT =	20,717 HOURS

According to the Code of Iowa, community service is to be calculated by the federal minimum wage, which is \$7.25. Therefore, \$150,198.25 in value was given back to the courts and/or community via community service.

* **Hours include self-supervised probationers**

+ **Includes hours residential offenders completed while supervised by AmeriCorps Members**

Total Interviews Conducted	2,852

OTHER SERVICES PROVIDED

Volunteer Assistance Program

Community Volunteers

There are over 4,000 individuals under Sixth District supervision, with more people being released all the time. These people have a variety of needs including: housing, job assistance, education, parenting, and developing supportive and pro-social relationships, to name a few. While corrections professionals can and do provide basic supervision, they have neither the resources nor time to provide everything people need to re-integrate successfully back into their communities. Without the support of community volunteers we will never be able to create the safe and peaceable communities we all desire.

Workplace Learning Connection

We work with Workplace Learning Connection providing high school students an opportunity to learn about the various career opportunities within our district. A staff panel is hosted one to two times a year based on student interest.

Interns

We provide internship opportunities for the undergraduate and graduate level students from at least 12 different local colleges and universities, including a few out-of-state institutions as well. The number of interns accepted each term varies depending on various factors like staff case loads, interns' number of hours required, projects available, and special events taking place.

Work Study Students

We have worked closely with Kirkwood Community College and Mt. Mercy University to host students that have been approved for federal work study dollars as part of their educational financial aid packet. This partnership has become a win-win-win for all parties involved as the students gain valuable real-world work experience; we have minimal to no cost while receiving an additional "staff" member; and the schools have an additional placement site to offer students.

ASSESSMENTS

During FY'13 there were a total of 12,304 assessments conducted.

Total/Percentage	63	100%	12	100%	10	100%	29	100%

DEFINITIONS TO REVOCATION CATEGORY REASONS ABOVE:

1. New Felony/Aggravated Misdemeanor Conviction (data from ICIS)
2. New conviction other than Felony/Aggravated convictions (data from ICIS)
3. New arrest (data pulled from ICIS)
4. No arrests/convictions in ICIS, however, Violation Report contains a violation behavior code of "New Arrest" (ICON data)
5. No arrests/convictions, technical violations only (data from ICON)
6. No arrests/convictions, however, no Violation Report in ICON

Parole Supervision Status: Any offenders whose parole was revoked and Work Release granted and were not physically received by IMCC or paroled to a detainer and revoked in a prior fiscal year, but were not physically received by IMCC until the current fiscal year will not be included in above count.

RECIDIVISM

Recidivism is defined as subsequent convictions for felonies or aggravated misdemeanors of offenders who discharged (final closure) from correctional supervision within the report date range (7/1/09 - 6/30/10).

By Supervision Status:

Supervision Status	Count Closures	Offenders Recidivating	Recidivism Rate
Parole	120	30	25.0%
Probation	2,046	324	15.8%
Sum:	2,166	354	16.3%

By Offense Type:

	Aggravated Misdemeanor	B Felony	C Felony	D Felony	OFOF	Supervision Status Totals
Parole	23	0	2	5	0	30
Probation	245	3	14	61	1	324
Offense Class Totals	268	3	16	66	1	354

NOTE: The offender can be counted multiple times for each supervision status closure. OWI Continuum and Work Release Supervision Statuses are excluded due to most offenders going to parole supervision from these placements.
